**Introduction**

We congratulate you on the purchase of your Jaeger-LeCoultre watch and thank you for your confidence.

This Art Deco icon with its pure geometric shapes remains as timeless yet contemporary as ever. Now a legend in its own time, the Reverso Lady continues to shine like a beacon in the watchmaking industry.

Precious and elegant, the Reverso Lady jewellery watch is a fairytale landscape living in step with fine watchmaking technology. On the front, its dial is illuminated by 28 diamonds. On the back, its second face is dedicated to a customized engraving.

We invite you to consult the operating instructions and we wish you great pleasure with your Jaeger-LeCoultre timepiece.
Accuracy

Mechanical models with manual or automatic winding

The precision of the mechanical models is determined by the balance. The latter performs 21,600 or 28,800 vibrations per hour depending on the model (see technical characteristics).

Despite all the care that the Jaeger-LeCoultre master-watchmakers have lavished on making and assembling your watch, its accuracy is subject to the influence of gravity, magnetic fields, shocks, as well as ageing of the oils. This accuracy is measured by its rate regularity in various positions.

The nature of your temperament and of your daily activities may cause slight variations in timekeeping. If you were to notice that your watch is running slow or fast, we advise you to take it to an approved Jaeger-LeCoultre retailer, who will make any necessary adjustments.

Quartz models

The quartz models are accurate to within 2 to 3 minutes per year.

Jaeger-LeCoultre quartz watches contain a battery and electronic components. When performing maintenance, your official Jaeger-LeCoultre Service Centre or your authorised Jaeger-LeCoultre retailer will take charge of their recovery and disposal in accordance with the standards in force.

Water resistance

Jaeger-LeCoultre Reverso watches are water-resistant to 3 bar/atm. This property is identifiable by the symbol engraved on the case-back. This means that you can use your watch for short swims, and when diving from the poolside, but not from a diving board. It must not be used either for scuba diving or for sports where there are significant risks of hard knocks, such as windsurfing and waterskiing. Please also note that leather straps are not suitable for aquatic activities.

It is also essential to have the water resistance of your watch regularly checked by an authorised Jaeger-LeCoultre retailer at least once every 2 years, and definitely before any period in which it will undergo prolonged and / or regular immersion.

The «1000 Hours Control» test by Jaeger-LeCoultre

Jaeger-LeCoultre subjects each of its watches to the rigorous «1000 Hours Control» test programme. Unique in its kind, this test consists of 1000 hours of comprehensive, stringent checks.

The «1000 Hours Control» seal or marking affixed or engraved on the back of your watch certifies that it has undergone this observation programme in our laboratories and has passed all the tests, relating to rate regularity, temperature and atmospheric pressure, resistance to impacts and magnetic fields, as well as water-resistance. Your watch is therefore capable of withstanding the trials awaiting it in everyday life when you wear it on your wrist.

The criteria of the «1000 Hours Control» programme go far beyond the official timekeeping test standards, which concern only part of the movement. Jaeger-LeCoultre tests not only the movement before casing it within the watch, but also the watch as a whole.
Adjusting the bracelet

You can adjust your steel bracelet yourself. However, if you have a gold model, we advise you to entrust it to the nearest approved Jaeger-LeCoultre retailer, or to contact one of our official Service Centres listed at the end of the guarantee booklet.

Adjusting the steel bracelet

Place the watch on your wrist. You can thus see how many links need to be added or removed.

Remove your watch by simultaneously pressing the pushpieces on either side of the clasp.

Hold the bracelet near the clasp. Using the adjustment tool, press the end of the bar (fig. 1) and lift up the link (fig. 2). Avoid the 2 links on either side of the clasp.

Proceed in the same way for the following link (fig. 3) if you want to remove a single row of links (or the 2nd, 3rd, etc. if you want to remove 2, 3... rows of links).

Take out the two bars (fig. 4).

Remove the row(s) of links (fig. 5).

Place the 2 ends of the bracelet back together and insert a bar (fig. 6).

Tip over the link, press on the end of the bar pivot and push your link down until it clicks (fig. 7).

Adjusting the clasp

The clasp of your watch is fitted with a length-change system enabling you to lengthen or shorten your bracelet by 4 mm on each side, for enhanced wearer comfort.

Using the fine adjustment system

Transition from the long position to the short position:
Remove your watch.
Hold your clasp open between the thumb and forefinger of one hand, with the bracelet section in your other hand (fig. 1).

Lift up the clasp cover so as to release the tipover part of the bracelet section from its groove (fig. 2).

Push the tip-over part of your bracelet section and place it in its groove, facing the opposite way to its initial position (fig. 3).

The transition from the short to the long position is done in the same manner, but in the opposite direction (fig. 4).
**Mechanical Model**

Technical characteristics
- Manually-wound mechanical movement, Calibre 846.
- 21,600 vibrations/hour.
- Power reserve: approximately 40 hours.

Movement

![Jaeger-LeCoultre Calibre 846](image)

Use

Winding
Crown in position 1.
Winding is performed by turning the crown clockwise. The watch is fully wound when the crown locks.
Do not attempt to wind a manually-wound watch beyond the locking point.
To ensure good operating accuracy, it is advisable to wind your watch regularly, at least once a day.

Setting the hour and minutes
Pull the crown out to position 2.
Move the hands clockwise until the desired time is displayed.
When the operation is completed, push the crown back to position 1.

**Quartz Model**

Technical characteristics
- Quartz movement, Calibre 608.
- 32,768 HZ.
- The battery reference is 377.

Movement

![Jaeger-LeCoultre Calibre 608](image)

Use

Setting the hour and minutes
Pull the crown out to position 2.
Move the hands clockwise until the desired time is displayed.
When the operation is completed, push the crown back to position 1.
International Guarantee

This International Guarantee applies to Jaeger-LeCoultre products sold or presented for guarantee repairs in all countries except the United States of America and Canada (for those two countries, see the Limited Warranty).

The manufacturer’s International Guarantee applies only to Jaeger-LeCoultre products purchased from authorised Jaeger-LeCoultre retailers. In addition, all maintenance and repair works must be carried out either by an authorised Jaeger-LeCoultre retailer or by an official Jaeger-LeCoultre Service Centre. If these conditions are not met, the manufacturer’s guarantee does not apply. For a list of authorised Jaeger-LeCoultre retailers worldwide, please contact Jaeger-LeCoultre or its Distributors.

Jaeger-LeCoultre watches

The terms and conditions of the Jaeger-LeCoultre International Guarantee

The following terms and conditions of the Jaeger-LeCoultre International Guarantee apply to watches sold or presented for guarantee repairs in all countries except the United States of America and Canada (for those two countries, see the Limited Warranty).

Your Jaeger-LeCoultre watch is guaranteed against all manufacturing defects for two years from the date of purchase, subject to the following conditions.

Any part found by our technical services to be defective as a result of a manufacturing defect will be, at the sole discretion of Jaeger-LeCoultre, repaired or replaced free of charge.

The Jaeger-LeCoultre International Guarantee is valid only if the guarantee certificate enclosed with this booklet has been duly completed, dated, stamped and signed by the authorised Jaeger-LeCoultre retailer who sold your watch.

This International Guarantee does not cover defects resulting from accidents, mishandling or incorrect or abusive use (for example, knocks, dents, crushing, excessive temperatures, powerful magnetic fields), the use of or effect of using batteries other than those designated by Jaeger-LeCoultre, unauthorised alteration or repair or the consequences of normal wear and ageing of the watch, the strap or the glass, the loss of water resistance after two years after the date of purchase if your watch is water-resistant, and any defect resulting from the contact with water if your watch is not water-resistant.

Jaeger-LeCoultre water-resistant watches may be identified by the symbol ⬇️ engraved on the back. Their water resistance is guaranteed for two years from the date of purchase, provided that the glass, the bezel, the back, the middle part and the crown have not been damaged. It is essential to have the water resistance checked by an authorised Jaeger-LeCoultre retailer or an official Jaeger-LeCoultre Service Centre at least once a year, and in any event, prior to any period of intensive use. Please refer to the operating instructions for further details.

For quartz watches, this guarantee does not cover the battery life.

As a consumer, you may have legal rights under applicable national legislation governing the sale of consumer goods; those rights are not affected by this guarantee.

Customer service at Jaeger-LeCoultre

The movement of a mechanical watch requires regular maintenance (servicing, lubrication, etc.) to ensure a long operating life. Should your watch need servicing or repairs, please send it, together with its guarantee certificate, to the authorised Jaeger-LeCoultre retailer who sold it to you.

Alternatively, you may send it to one of the official Jaeger-LeCoultre Service Centres listed at the end of this booklet, or to any authorised Jaeger-LeCoultre retailer of which a list is available on the «www.jaeger-lecoultre.com» website.

Our official Service Centres employ watchmakers trained at the Jaeger-LeCoultre Manufacture and possess the tools and parts necessary to repair and maintain all Jaeger-LeCoultre watches and clocks. In certain cases, especially for operations requiring special tools and parts, the Service Centres will send your watch to the Jaeger-LeCoultre Manufacture in Switzerland to have the necessary work carried out.

In any case, or if you live in a country which is not indicated in our lists, please do not hesitate to contact directly Manufacture Jaeger-LeCoultre in Switzerland, Rue de la Golisse 8, 1347 Le Sentier, telephone +41 21 845 02 02, fax +41 21 845 05 50, which will inform you of the procedure to follow. We also invite you to visit our website «www.jaeger-lecoultre.com» for an updated list of official Jaeger-LeCoultre Service Centres.

For quartz watches, this warranty does not cover the battery life.

Except insofar as prohibited by applicable law, this Limited Warranty shall be the exclusive manufacturer’s warranty. Neither this Limited Warranty nor any other warranties, whether express or implied, including, but not limited to, any implied warranty of merchantability or of fitness for any particular purpose, shall extend beyond the period of two years from the date of purchase.

The liability of Jaeger-LeCoultre is limited solely and exclusively to repair or replacement under the terms and conditions stated herein. Jaeger-LeCoultre shall not be liable, by virtue of this Limited Warranty or otherwise, for any loss or damage arising out of the use of or inability to use this watch nor for any incidental or consequential damages relating in any way to this watch. Some States, Provinces and Territories do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

This Limited Warranty grants you specific legal rights, in addition to which you may have other legal rights which vary from one Country, State, Province or Territory to another.
